## Sign Setup

### Sign Setup

- SandFall features join signs that have the ability to automatically display current game information

### Creating Signs

- Before you create a sign, you have to have created the arena you want to make a sign for!
- Step 1.) Place a sign
- Step 2.) Fill lines as follows:
  - [SandFall]
  - arenaname
  - 
  -
- Where areaname is the name of the arena you want to make a sign for in lower-case & line 3 & 4 are blank
- If done properly, you will receive a confirmation message and the sign will update with colors

### Sign Info

- Once a sign has been created, players can join the arena by simply clicking the sign
- Signs will auto update with information about game countdown, and current stats
- If you disable an arena, signs will update with red text 'Disabled'
- If you delete an arena while signs still exist, the signs will update with red text 'Deleted'. If you remake the arena with the same name, you'll have to delete these signs with 'Deleted' and recreate them for them to function

### Remove Signs

- To remove a sign, look at the sign and type /break

### Signs Breaking

- If a sign breaks, SandFall should automatically detect it. If it fails to do so, the sign will be removed from the database on next SandFall startup
